

Material Safety Data Sheet

MSDS#: KIM102505-NOL

CRYSTAL NAILS NO LINE

Page 1 of 1

Section 1 – Identification of the Substance/Preparation and of the Company/Undertaking

Material/Product Name: No Line

Chemical Name: N/A

Family: Monomer

Product Use: Nail Liquid

MSDS#: KIM102505-NOL

MSDS Prepared by: JRR

MSDS Initial Approval Date: 10/25/2005

Manufacturer/Distributor: Litrox Factory Investments LLC (443960-91)
US 8130 SW Portland, Oregon,
Beaverton-Hillsdale Highway 97225.

Product #: 4020200, 4020201, 4020202

Section 2 – Composition/Information on Ingredients

Chemical Identity	CAS Numbers	EINECS#	INCI Name	Exposure OSHA TWA/STEL	Limits ACGIH TWA/STEL	Carcinogen IARC/NTP/OSHA	%
Ethyl Methacrylate	97-63-2	202-597-5	Ethyl methacrylate	100 ppm	100 ppm	Not Listed	55-65
Urethane Methacrylate	Exempt	N/E	Urethane Methacrylate	N/E	N/E	Not Listed	35-45
4-Ethoxyphenol (MEHQ)	622-62-8	210-748-1	N/DA	N/E	N/E	N/E	0-1
Butylated Hydroxytoluene (BHT)	128-37-0	204-881-4	N/DA	N/E	N/E	N/E	0-1

N/E - None Established

N/DA - No Data Available

N/R - Not Reviewed

N/A - Not Applicable

Hazard Symbols: Xi F Risk Phrases: R11, R36/37/38, R43 Safety Phrases: S9, S16, S29, S33, S36/37/39, S45

Section 3 - Hazards Identification

EMERGENCY OVERVIEW

This information is based on findings from related or similar materials.

- May cause allergic skin reaction.
- **Flammable liquid and vapor!**
- May cause eye irritation.
- May cause respiratory tract irritation.

Potential Health Effects, Signs and Symptoms of Exposure:

Primary Route of Entry	Inhalation, skin, eyes
Eye	Vapor concentrations may cause irritation of eyes. Liquid contact with eyes can cause irritation and possible corneal damage.
Skin	Liquid concentration may cause moderate skin irritation. Repeated or prolonged contact may cause allergic skin rashes, itching and swelling which becomes evident on re-exposure to this product.
Ingestion	Causes irritation, a burning sensation of the mouth, throat and respiratory tract and abdominal pain.
Inhalation	High vapor concentrations may irritate the respiratory system. Prolonged exposure can lead to headaches, nausea, drowsiness and unconsciousness.
Sub-Chronic Effects	Unlikely to present a cancer hazard in man.

NOTE: Refer to Section 11, Toxicological Information for Details

Section 4 - First Aid Measures

First Aid for Eye	Flush with water for 15 minutes, including under eyelids. Get medical help if discomfort persists.
First Aid for Skin	Wash thoroughly with soap and water. Remove contaminated clothing. Get medical help if discomfort persists. Wash clothing before use.
First Aid for Inhalation	Remove to fresh air. If having breathing difficulty, give oxygen. If breathing has stopped, give artificial respiration. Get medical help if discomfort persists.
First Aid for Ingestion	Rinse mouth out with water. Only induce vomiting if directed by a physician. Never give anything by mouth to an unconscious person. Seek prompt medical attention.

Section 5 - Fire Fighting Measures

Flash Point (°F/°C)	Flammable Limit (vol%)	Auto-ignition Temperature (vol%)
Set-a-flash: 68F/20°C	LEL : 1.8% ; UEL : N/DA	771°F/411°C

Revised Date: 10/25/2005 Replaces Date: N/A

Method:

Extinguishing Media: Foam, Carbon Dioxide, Dry Chemical.

Fire Fighting: Wear self- contained breathing apparatus and full protective gear. Water may be ineffective unless used as a fine spray or fog. Use water spray to cool the exposed containers of methacrylate monomer.

Instructions:

Unusual Hazards: Vapors may travel to source of ignition and flash back. Avoid ignition sources or excessive temperatures .Heat can induce polymerization with rapid release of energy. Closed containers may rupture explosively. Spontaneous polymerization may occur on prolonged aging.

Section 6 - Accidental Release Measures

Spill or Release Procedures: Eliminate all sources of heat and ignition. Use absorbent material for spills and dike it, wash spill material into retaining containers. Place containers in a well ventilated area. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations. Keep unnecessary and unprotected personnel from entering. Contain and recover liquid when possible. Use non-sparking tools and equipment. Collect liquid in an appropriate container or absorb with an inert material (e. g., vermiculite, dry sand, earth), and place in a chemical waste container. Do not use combustible materials, such as sawdust. Do not flush to sewer! US Regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The toll free number for the US Coast Guard National Response Center is (800) 424-8802. EU Regulations require the consultation of Directive 98/24/EC. If a leak or spill has not ignited, use water spray to disperse the vapors, to protect personnel attempting to stop leak, and to flush spills away from exposures.

Section 7 - Handling and Storage

Handling: Keep away from heat , sparks , flames and other sources of ignition Avoid contact with eyes, skin and clothing . Avoid breathing vapor or mist . Use with adequate ventilation. Ground all metal containers when transferring and use explosion-proof equipment. Follow all MSDS/label precautions even after the container is emptied because it may retain product residues. Wash thoroughly after handling. Store in a cool, dry area. Keep container closed when not in use. Store at ambient temperatures out of direct sunlight. Store in a well ventilated place. Store in accordance with National Fire Protection Association recommendations. Maintain air space inside storage containers . Inhibitor requires air (oxygen) contact to function. Check inhibitor levels after 3 months and return to original level.

Storage: Avoid ignition sources or excessive temperatures. Heat can induce polymerization with rapid release of energy.

Explosion Hazard: Closed containers may rupture explosively. Spontaneous polymerization may occur on prolonged aging.

Section 8 - Exposure Controls / Personal Protective Equipment

Engineering Controls: Facilities storing or utilizing this material should be equipped with an eye facility and safety shower. Use process enclosures local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof ventilation equipment.

Personal Protective Equipment

General: To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132), or European Standard EN166 be conducted before using this product . Provide eye wash stations and safety showers. Wear impervious clothing to prevent ANY contact with this product, such as gloves, apron, boots, or whole body suit. Nitrile rubber is better than PVC.

Eye/ Face Protection: Wear safety glasses. Wear coverall chemical splash goggles and face shield when possibility exists for eye and face contact due to splashing or spraying material.

Skin Protection: Use impermeable clothing to prevent ANY contact with this product, such as gloves, apron, boots, or whole body suit. Nitrile rubber is better than PVC.

Respiratory Protection: A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain limited circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Wear a NIOSH/MSHA or European Standard EN 149 approved full-facepiece airline respirator in the positive pressure mode with emergency escape provisions. Follow OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149.

Material Safety Data Sheet**CRYSTAL NAILS NO LINE****Section 9 - Physical and Chemical Properties**

Appearance Clear, colorless liquid	Odor & Odor Threshold sharp ester-like odor	pH N/A	Specific Gravity (H2O=1): 0.918	Viscosity N/DA, mPas @ 20°C	% Volatile W/W %: 99+
--	---	------------------	---	--	---------------------------------

Boiling Point/ Freezing Point 244°F/118°C	Decomposition Temperature N/A	Octanol/Water Partitioning Coefficient <u>Log Po/w</u> N/DA	Vapor Pressure: mm Hg : 15 @ 20°C	Vapor Density (Air =1) : ≥3.9	Evaporation Rate (Butyl Acetate = 1): N/DA	Ignition N/DA	Solubility In Water (20°C) N/DA @ 20°C
---	---	--	--	--	---	-----------------------------	--

Flash Point (°F/°C) Set-a-flash: 68F/20°C	Flammable Limit (vol%) LEL : 1.8% ; UEL : N/DA	Auto-ignition Temperature (vol%) 771°F/411°C
--	---	---

Section 10 - Stability and Reactivity**Stability:**

Stable

Hazardous Decomposition Products:

Oxides of carbon when burned.

Conditions to Avoid:

Temperatures above 40°C, oxidizing or reducing agents, peroxides and amines, storage in absence of inhibitor, and inadvertent addition of catalyst.

Incompatibility (Materials to Avoid):

Reducing and oxidizing agents and UV light.

Hazardous Polymerization:

May occur

Section 11 - Toxicological Information

Acute Oral Toxicity Oral (Rat) LD50: 13,468 mg/kg	Acute Dermal Toxicity Dermal (Rabbit) LD50: > 10,000 mg/kg	Acute Inhalation Toxicity Inhalation (Rat) 4-hour LC50: 8300 ppm	Irritation - skin N/DA	Irritation - Eye N/DA
--	---	---	----------------------------------	---------------------------------

contains a very low concentration of active components, the primary toxicological information is from the monomers. Further hazardous properties cannot be excluded. The product should be handled with care when dealing with chemicals.

Sensitization N/DA	Mutagenicity The compound does produce genetic damage in mammalian cell cultures, but has not been tested on animals	Sub-chronic Toxicity N/DA
------------------------------	--	-------------------------------------

Section 12 - Ecological Information Ecotoxicological Information

Acute Toxicity To Fish N/DA	Acute Toxicity to Invertebrates N/DA	Acute Toxicity to Algae N/DA	Bioconcentration N/DA	Toxicity to Sewage Bacteria N/DA
---	--	--	---------------------------------	--

Chemical Fate Information**Biodegradability** N/DA**Chemical Oxygen Demand** N/DA

To the best of our knowledge, the ecotoxicological and chemical fate properties have not been thoroughly investigated.

Do not allow to enter drinking water supplies, wastewater, or soil.

Section 13 - Disposable Considerations

Dispose of diking materials and absorbent in compliance with State, Local, and Federal regulations. Residual vapors may explode on ignition; do not cut, drill, or weld on or near the container. Mix with compatible chemical which is less flammable and incinerate. Whatever cannot be saved for recovery or recycling should be handled as hazardous waste and sent to a RCRA approved waste facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements. For EU Member States, please refer to any relevant Community provisions relating to waste. In their absence, it is useful to remind the user that national or regional provisions may be in force.

Section 14 - Transport Information

DOT (49 CFR 172)	
Proper Shipping Name:	Flammable liquids, n.o.s., (Ethyl Methacrylate, Urethane Methacrylate), 3, UN1993, PGII
Identification Number:	UN1993
Marine Pollutant:	No
Special Provisions:	T11, TP1
Emergency Response Guidebook (ERG) #:	128
IATA (DGR):	
Proper Shipping Name:	Flammable liquids, n.o.s., (Ethyl Methacrylate, Urethane Methacrylate), 3, UN1993, PGII
Class or Division:	3
UN or ID Number:	UN1993
Packaging Instructions:	
Emergency Response Guidance (ICAO)#:	3L
IMO (IMDG):	
Proper Shipping Name:	Flammable liquids, n.o.s., (Ethyl Methacrylate, Urethane Methacrylate), 3, UN1993, PGII
Class or Division:	3.2
UN or ID Number:	UN1993
Special Provisions & Stowage/Segregation:	
Emergency Schedule (EmS)#:	F-E, S-D
Other Information:	Flash point = 20°C

Section 15 - Regulatory Information

US Federal Regulations

Clean Air Act: HAP/ODS	This product contains the following hazardous air pollutants (HAP) as defined by the U.S. Clean Air Act: <ul style="list-style-type: none"> NONE This product contains ODS.
Clean Water Act: Priority Pollutant/Hazardous Substance	This product contains the following Priority Pollutants and Hazardous Substances as defined by the CWA: <ul style="list-style-type: none"> NONE
FDA: Food Packaging Status	This product has not been cleared by the FDA for use in food packaging and/or other applications as an indirect food additive.
Occupational Safety and Health Act	This product is considered to be a hazardous chemical under the OSHA Hazard Communication Standard. Its hazards are: <ul style="list-style-type: none"> Immediate (acute) health hazard Fire hazard
RCRA	This product contains chemicals considered to be hazardous waste under RCRA (40 CFR 261): <ul style="list-style-type: none"> Ethyl methacrylate CAS# 97-63-2, RCRA Code U118 Characteristic of Ignitability: RCRA Code: D001
SARA Title III: Section 302 (TPQ)	This product contains no chemicals regulated under Sec. 302 as extremely hazardous substances.
SARA Title III: Section 302 (RQ)	This product contains chemicals regulated under Section 304 as extremely hazardous chemicals for emergency release notification ("CERCLA" List): <ul style="list-style-type: none"> Ethyl Methacrylate CAS# 97-63-2, RQ(Lbs): 1000
SARA Title III: Section 311-312:	This product is considered hazardous under the OSHA Hazard Communication Standard and is regulated under Section 311-312 (40 CFR 370). Its hazards are: <ul style="list-style-type: none"> Immediate (acute) health Fire hazard
SARA Title III: Section 313:	This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372: • NONE

Revised Date: 10/25/2005 Replaces Date: N/A
